## UNION LEADERS REFUTE OWNERS' STRIKE CHARGE

**Jewel Replies to Statement of Executives About Threatened Trouble TO FRAME ANSWER**  
**Presidents Charge Talk of Strike Only Among Union Chiefs.**

Cincinnati, June 8.—Replying to the charges of six railroad executives that union leaders alone were responsible for strike talk, Bert M. Jewel, president of the American Federation of Labor declared here this morning that some of the statements made by the six executives were untrue.

"The declaration of the executives that the present wage scales of railroad workers makes them a favored class of workers is ridiculous and absurd in the extreme," Mr. Jewel said. "An examination of the wage scales of other industrial workers will prove to any one just how unfounded this statement of the executives is."

"The assertion that the roads are still facing a severe financial crisis and that the reduction of wages is necessary to have them is obviously without foundation. The facts have been exaggerated."

Mr. Jewel refused to comment further on the statement, saying that he could not speak as an individual, but only as president of a union of railroad men. He declared that a formal reply to the executives' statement will be framed as soon as the directing board of the railroad division of the federation could meet and go over the charges thoroughly.

Mr. Jewel immediately called a conference of the brotherhood chiefs here who met in executive session. A sinister silence was noticeable as the leaders read the six executives' charges before going into session. They declared that they intended to discuss these at once.

While the railroad leaders were deploying to establish a new line of defense, other labor leaders here to attend the conference before the opening of the American Federation of Labor convention next Tuesday were smoking the peace pipe. John Donlin, president of the building trades department of the federation announced that steps were being taken for the return of the carpenters' union to affiliation with the federation. The carpenters' union withdrew recently after a dispute over trade regulations, but Mr. Donlin said that he expected to announce their reaffiliation within the next few days.

Methods through which the workers could stimulate business were discussed at the annual meeting of the metal trade department of the American Federation of Labor. Jas. O'Connell, president, urged all members of metal trades unions to request congressmen to use their influence in obtaining the reopening of some of the government shipyards. Mr. O'Connell criticized the present administration because it is "seeking economy for political reasons and neglecting the working men of the nation."

## ANOTHER SLASH IN PAY OF RAILROAD WORKERS IS NEAR

**Reported That Coming Cut Will Be Largest Yet Made.**

Chicago, June 8.—Another slash in the pay of railroad employees was imminent today.

Members of the U. S. railroad labor board went into executive session this morning to consider a reduction in the salaries of all the railway clerical forces. It was reported that the cut would be the largest yet made, exceeding even the \$100,000,000 annual slash made from the wages of 1,200,000 other railroad men made, in two recent decisions. The forthcoming decision of the board will affect all the members of the international brotherhood of railway and steamship workers.

Just how the officials of the clerical union will take the cut should it come is problematical. The railroad workers are now actively balloting on the question of strike and the ballots are returnable June 30.

What further steps will be taken by this government in the matter were not disclosed but it was indicated the matter will not be allowed to drop as being of no consequence.

## EXPLOSION ROCKS SECTION OF CLEVELAND EARLY THURSDAY

**Firing of Pile of Sawdust Results in Blast That Demolishes Cuyahoga Mill Works Plant, and Stuns -- Number Asleep in Homes.**

Cleveland, O., June 8.—An explosion following the firing of a pile of sawdust in the plant of the Cuyahoga Mill Works at 2615 East 29th street early this morning completely demolished the plant, rocked that section of the city, stunned a number of persons asleep in their beds and broke hundreds of window panes.

The building at 2615 East 29th street, which was occupied by a number of families, felt the greatest effect of the shock.

The fire and police departments today were unable to furnish an accurate estimate of the loss, but stated that they believed the explosion was caused by sparks from a gasoline engine setting fire to the sawdust.

Bayles, husband of the wounded girl, called at the hospital to see her.

Plaintiff prays the court to issue an injunction restraining defendants from continuing their alleged serious injury of plaintiff's business.

## JUNE WILL SEE TREND TOWARD END OF STRIKE

**Rumors Persist That Negotiations Will Be Well Under Way.**

## POMERENE NAMED

**Senator Reported to Have Been Asked to Mediate Differences**

Bridgeport, O., June 8.—In spite of reports that the railroad unions may form a gigantic alliance with striking coal miners, thus making five million idle men after July 1, rumors persist today that June will see successful negotiations looking to the end of the coal strike. The latest reports are based on information from Washington. These consist of:

1. Announcement that United States Senator Atlee Pomerene, Canton, has been asked to mediate the differences between the striking bituminous coal miners and the operators.
2. Tips that the government may quickly take a hand to bring about a conference between the two factions that the third party to the dispute, the public—may not suffer further.

A paper in Canton, Pomerene's home town, carried the news that Senator Pomerene had been asked to mediate the strike. The dispatch said that operators made the overtures and that Pomerene had not yet decided whether he would accept the offer. The fact that it was in a Canton conference that the 14 months strike of 15,000 Eastern miners was settled in 1914 after the record battle over the run-of-mine method of payment, is considered a good sign.

Persons prominent in the industry credit reports of governmental intervention. They say the coal strike is taking up too much time of officials and causing so much dissatisfaction that demands for a conference may come soon to the union and operators' association.

## SAY STRIKE CALL WILL NEVER BE SENT OUT

Chicago, June 8.—Members of railway unions affected by recent wage cut orders of the United States railway labor board will vote to strike but the actual call for the strike may never be issued, according to opinion expressed in railroad circles here today. It was pointed out that a strike vote and an actual strike are vastly different affairs.

Leaders of the railroad unions were in Cincinnati today for the most part and could not be reached here for comment on the statement signed by six middlewestern railroad presidents that the strike threat of the unions is all "bluff." This viewpoint was first expressed by a prominent railroad president in an exclusive interview with the International News Service on Saturday.

The statement issued by the six railway presidents stated that the strike talk is coming from the union leaders and not from the men. It asserted that the employees "in the main are sincerely interested in taking care of their jobs and homes," and that they have been trying for some time to meet conditions that will result from the wage cuts.

The statement was signed by C. H. Markham of the Burlington, H. E. Byram, of the Chicago, Milwaukee and St. Paul, W. H. Finley, of the Northwestern, J. E. Gorman, of the Rock Island, and S. M. Felton of the Chicago and Great Western.

At headquarters of the railway employees' department of the American Federation of Labor here no comment was forthcoming on the statement of the railway presidents in the absence of B. M. Jewell, head of the department who is in Cincinnati. It was stated however, that the strike vote which began Tuesday is continuing and the prediction was reiterated that the employees would vote overwhelmingly in favor of a strike.

## IRISH SEEK GOVERNMENT LIKE THAT NOW IN EFFECT IN CUBA

**British Open Attack In Suggestion Will Get Small Consideration It Is Believed.**

Belfast, June 8.—British troops have opened an attack against Republicans in the sector of Belleek, in the southwestern part of Ulster province, according to information received here this afternoon.

A large paper store and laundry in Belfast were wrecked with bombs and burned.

According to information from Londonderry, a regiment of Dorset and East Lancashire troops have arrived from Liverpool, taking up stations along the river Foyle.

Several thousand Republicans are reported to be concentrated in the region of Raphoe. They are said to be armed with the latest American made rifles. In Donegal Republicans are reported to be conscripting royalists for the purpose of using them as "fire screens."

London, June 8.—Arthur Griffith, president of the Dail Eireann, Hugh Kennedy, legal adviser of the Irish provisional government, at Dublin, and Kevin O'Higgins, of the Dail cabinet, have proposed to the British signatories of the Anglo-Irish peace treaty that the Irish free state be granted a constitution similar to that of Cuba towards the United States.

When the conferees gathered today it was regarded as most unlikely that the Cuban suggestion would get official sanction. The cabinet already has made known its attitude on the future relationship of Ireland and Britain and it has been announced that Britain will go no further than she has in creating the free state.

If the Irish were given a constitution with such latitude as that of Cuba, Ireland would have more political liberty than any other British dominion.

State Senator W. H. Chatfield, Jr., Cincinnati, and Raymond J. Logan, Cleveland Heights, added their names today to the candidates for the Republican nomination for lieutenant governor. Mrs. Joseph B. Foraker widow of Ohio's former governor and U. S. Senator, was one of the endorsees of Senator Chatfield's candidacy.

## SEEK TO MEDIATE TROUBLE BETWEEN A. F. O. L. FACTIONS

**Samuel Gompers Steps Into Breach to Arrange Conciliation.**

Cincinnati, O., June 8.—Strenuous efforts being made by American Federation of Labor officials to mediate the differences between the brotherhood of carpenters and the building trades department of the federation gained underway here today.

Samuel Gompers, federation president, has stepped into the breach and the conciliatory moves, officials declared, may be expected to be fruitful.

Partial solution of the dispute which resulted in the organized carpenters defecting from the building trades department ranks a year ago because of unsatisfactory decisions of the board of jurisdictional awards, will probably be effected before tonight.

Federation officials declared hope for complete conciliation by June 12 when the annual convention of the American Federation of Labor begins here.

Paris, June 8.—Allowing her fiancé Allister McCormick, young Chicago millionaire, but one goodbye kiss, Miss Mary Landon Baker departed for London early today. She was accompanied by her mother.

"She is gone and I won't see her for a week," McCormick murmured to a friend while tears filled his eyes.

## SOLDIER BONUS BILL REPORTED TO THE SENATE

**McCumber Puts Issue Squarely Up to Administration.**

## DEBT INTEREST USED

**Plan Involves Utilizing Foreign Debts as Means of Financing.**

Washington, June 8.—Ignoring alike the suggestion from opponents that the treasury cannot stand a bonus drain and hints from administration spokesmen that President Harding will veto the measure, Senator Porter J. McCumber, Republican of North Dakota, reported the long delayed and much discussed bonus bill to the senate today with a lengthy report favoring its passage.

The bill puts squarely up to the administration the payment of a soldiers' bonus from interest to be collected from the British and other debts.

The keynote of the senate finance committee's report was one of optimistic belief in the ultimate availability of foreign debt payments, and in the ultimate ability of the government to meet the bonus drain without recourse to further taxation.

The bill is expected to slumber on the senate calendar for a few days and then an effort will be made, to displace the tariff and rush it to passage.

McCumber explained that the bill, a modification of that passed by the house was intended to "correct the inequalities suffered by those who performed actual soldiers' duties, and received meager soldiers' wages" and excluded from its benefits "all those who were, given commissions while performing merely clerical work in the departments." Its benefits also were limited to those below the grade of captain in the army or marine corps, and lieutenant in the navy, he stated.

**Hopes for Progress.**  
In discussing the application of the foreign debt to the bonus, McCumber expressed the hope that the world war debt commission would make such progress toward refunding the demand obligations on foreign countries into long term obligations as to secure the latter "in the very near future" and render it possible for the foreign governments to "provide for the immediate payment of interest thereon" so that such interest "can be used toward defraying the expenses" of the bonus.

"The budget recently presented to the house of commons, provides for the installment of interest, due to the United States on the indebtedness of Great Britain payable November, 1922," McCumber pointed out. "In view of this fact it is believed that the United States can count on receiving interest payments from England from now on such payments aggregating about \$20,000,000 per annum."

"The March, 1923, revised estimates of receipts for the fiscal year ending June 30, 1923, contained an estimate of \$225,000,000 for interest on foreign obligations."

"This would be nearly three times the amount necessary to meet the obligations created by this bill for the first two years."

**Cost is Four Billions.**  
The highest cost the bill would impose would be \$4,486,545,975, McCumber estimated, but only in the event if all the veterans should avail themselves of the 20-year endowment insurance certificate plan with its borrowing provision.

"But even if this were possible," he said, "the payments would be scattered over forty or more years," his judgment being that many ex-service men would not actually apply for compensation until they required it, or for at least a number of years after the bill became a law.

The actual estimated cost of the various forms of compensation provided by the bill he figured, however, at \$3,845,659,481 on the basis that 75 per cent of the ex-service men would take the insurance certificate plan; 22 1/2 per cent farm home and land settlement aid and 2 1/2 per cent vocational training while but \$16,000,000 would be needed to meet the provision for a cash bonus for only those entitled to \$50 or less.

"The purpose of this bill," McCumber emphasized, "is to give the soldier who offered his service a compensation that will more nearly approach that of the laborer who remained at home, secure from danger and whose compensation increased from 200 to 300 per cent and, measured by the amount of labor actually performed, a percentage far beyond those figures."

## PRESIDENT ON TWO DAY TRIP INTO NEW JERSEY

The White House Car was attached to a regular train leaving here shortly after 9 o'clock.

## PLEADS NOT GUILTY TO SERIOUS CHARGE

Dayton, June 7—Harvey L. Henderson, 30, of 43 Sherman street, was arraigned in police court Wednesday on charges of embezzlement and pleaded not guilty, requesting that hearing be set for June 21. Bond was fixed at \$2,000.

Henderson is said to have embezzled \$3,600 from Erien, Greene and company, of which he was an employee for nearly two years, leaving last June because of ill-health.

He was arrested Tuesday morning by Detective John Dunlevy and Joe Wilcox, head of the police Bertillon bureau at the home of his father, 114 St. Paul avenue.

"I have nothing to fear," he said. "I did not take a cent of their money."

Officials of the brokerage company are of the opinion that the shortage on Henderson's books may prove to be much greater than \$3,600. A thorough examination of the books preceded the arrest.

### IS GIVEN SURPRISE IN CELEBRATION OF BIRTHDAY

The nephews and nieces and great nephews and nieces of Mr. George Sellers of the Indian Rifle road gave him a happy surprise at his home Sunday in celebration of his birthday. All brought well filled baskets and at noon a delicious dinner was served cafeteria fashion from a long table placed on the lawn.

Three large birthday cakes adorned with candles and fancy icing graced the table.

Among those present were Mr. Sellers' daughter, Miss Alice, who is a nurse at the Soldiers' Home in Dayton, Mr. and Mrs. Arch Holmes and family of Sabina, Mr. and Mrs. Frank Sellers and family, Mr. and Mrs. Walter Enyeart, Mr. and Mrs. Hill and Mrs. Clara Stebbins of Dayton.

Two interesting features of the evening were a kitchen contest, in which the prizes were won by Miss Olivia Cost and Mrs. Ralph Oster, and a letter writing contest in which letters were written to the bride and bridegroom elect to be read by them on their honeymoon trip.

The affair was in the nature of a kitchen shower and little Evelyn Jay pulled into the room a beautifully decorated wagon containing a large basket filled with gifts for the bride.

During the evening a salad course was served.

Out of town guests at the enjoyable affair were Mrs. Ambert Locke, Mrs. Roy Trubey and Mrs. Wallace Cole, of Dayton, Mrs. Edgar Reeves, of Columbus and Mrs. Ralph Oster of Yellow Springs.

## COUNTY COMMISSIONERS WILL NOT DECIDE BRYAN ESTATE QUESTION THIS WEEK

County Commissioners will not attempt to decide, the question of whether to accept the John Bryan estate of 500-acres, known as "Riverside Farm" near Yellow Springs, this week, it was authoritatively stated by County Commissioner R. D. Williamson, Thursday.

Instead the commission wants more time in which to investigate the question from all angles, pay a visit to the property and give the subject ample discussion before reaching a decision one way or the other, he said. This situation probably means that a decision will not be reached for several weeks.

If the county accepts the property it will be used for the purposes mentioned in the will, as a forestry, fish hatchery and game preserve, to be known according to the will, as "The John Bryan Natural History Reserve."

If the county does not accept the land, the property will be sold and the money derived will be used to further the beliefs held by Bryan.

The will first leaves the property to the state, with the provision that in the event the state should turn down the property, that it be turned over to the county. The same conditions imposed are in effect in either case. The clause in part reads: "Further con-

## DOLLAR DAY DRAWS BIG CROWD TO CITY EARLY ON THURSDAY

Faith in the old adage that the early bird gets the worm led shoppers to storm Xenia stores, seeking bargain early on the morning of the Chamber of Commerce Dollar Day.

The first shopkeeper was just opening his place of business when the vanguard of the shoppers' clan hove in sight baring eyes set for tempting values in merchandising as offered in advance notices of what merchants hoped to make the most successful Dollar Day ever held.

Xenia was quickly changed from a Saturday night to a Thursday morning town as the shoppers invaded the city for the purpose of taking advantage of the bargain opportunities offered. The streets were crowded, and stores were invaded early in order that the bargain seekers might avail themselves of the choicest offerings.

A slight shower early Thursday afternoon did not hinder the shopping but cooled the air slightly. Xenia merchants who joined with the Chamber of Commerce in promoting the Dollar Day are said to have been well pleased with the bargain day.

## HARDING DECORATES GRAVES OF CONFEDERATE VETERANS.

President Harding drove unannounced to Arlington National Cemetery on Sunday and took part in the ceremonies attending the decoration of the graves of Confederate veterans, who are buried there side by side with men in blue.

Intending only to lay a wreath as a simple act of recognition of the heroism of the men of the "lost cause," the President paused long enough to speak briefly but feelingly on the theme of a reunited Nation.

"The spirit which actuated the men in gray to fight for what they believed to be right," said the President, "is the same spirit that now makes them loyally devoted citizens of a reunited country."

The present generation, he asserted, had happily lived to see all sectionalism dissolved and no better symbol of the passing of discord could be found than in the scene witnessed.

"There they are," he said, pointing to the graves of Union and Confederate veterans, "united in death as we their descendants are united in life."

The President told a story to emphasize his point.

"I recall," he said, "the account of a Union soldier who was attending the Gettysburg reunion. The old veteran was asked if he would mind sleeping in a tent with a soldier of the Confederacy. 'Gosh, I fought with him and suffered with him why should I mind sleeping with him,' was the old soldier's reply. That is illustrative of the whole spirit of the reunited country today."

## OUR SPLENDID PUBLIC UTILITIES.

The public utility company of today takes the public into its confidence much more fully than in the past, so that the public may know what its profits and losses are. It also takes the public much more largely into its corporate membership, the stockholders in such corporations in the United States now running into the hundreds of thousands, thus distributing their ownership widely among all classes of people.

For these reasons, the masses are coming to realize more clearly their own relation to such utilities, and the necessity that they shall receive fair treatment at the hands of the public. Their source of income is the money which they charge for service rendered. If in a spirit of hostility they are subjected to unduly heavy taxes, the only way to meet this added charge, granted that they are managed with fair efficiency, is to increase their charge for service. If their charges are arbitrarily placed by law at too low a figure, they can continue to live only by economies which necessarily impair quality of service.

Friction of this kind between the public and the public utility inevitably works injury to both sides. The public does not get the kind of service it needs, the company does not make a reasonable profit, and the steady enlargement of facilities called for by growing population does not come, because friction and lack of fair profits will not attract new capital into the enterprise. When for a time some great public utility is abruptly put out of commission, we realize what a help it is, and what an inconvenience it is to be deprived of. Service of this kind is a two-sided arrangement, in which neither side can long profit by anything except friendly understanding, mutual confidence and mutual fairness.

## HARDING HIGHLY COMMENDED.

Congressman R. C. Cole, of Findlay, Ohio, who has the distinction of representing the President's own district in Congress, looks upon the political future as most assuring for the Republican party. "The nation never had a more popular President," says Cole, "and his administration has proven so eminently progressive that one of the most eminent of all eminent progressives, Gifford Pinchot, who has just been nominated to be Pennsylvania's next governor, has already nominated President Harding for a second term, and says it will be done by acclamation. Never has an administration accomplished so much for the good of the people in so short a time, and the good work has just started. President Harding has not only proven himself a human marvel as a harmonizer, but from the start surrounded himself with the nation's best minds, giving full recognition to the progressive element, such as Roosevelt's own son, young Teddy, and one of his chief managers, Walter F. Brown, as well as all other tried and substantial elements. That the people are pleased was shown at the Indiana and Pennsylvania primaries, where twice as many votes were cast by Republicans as by Democrats, and in each state they made nominations which in November will receive double the Democratic vote. Prosperity is returning by leaps and bounds and this fact, coupled with the splendid harmonizing of all factions in Ohio as well as other sections of the country, there is abundant reason for predicting another Republican triumph in November."

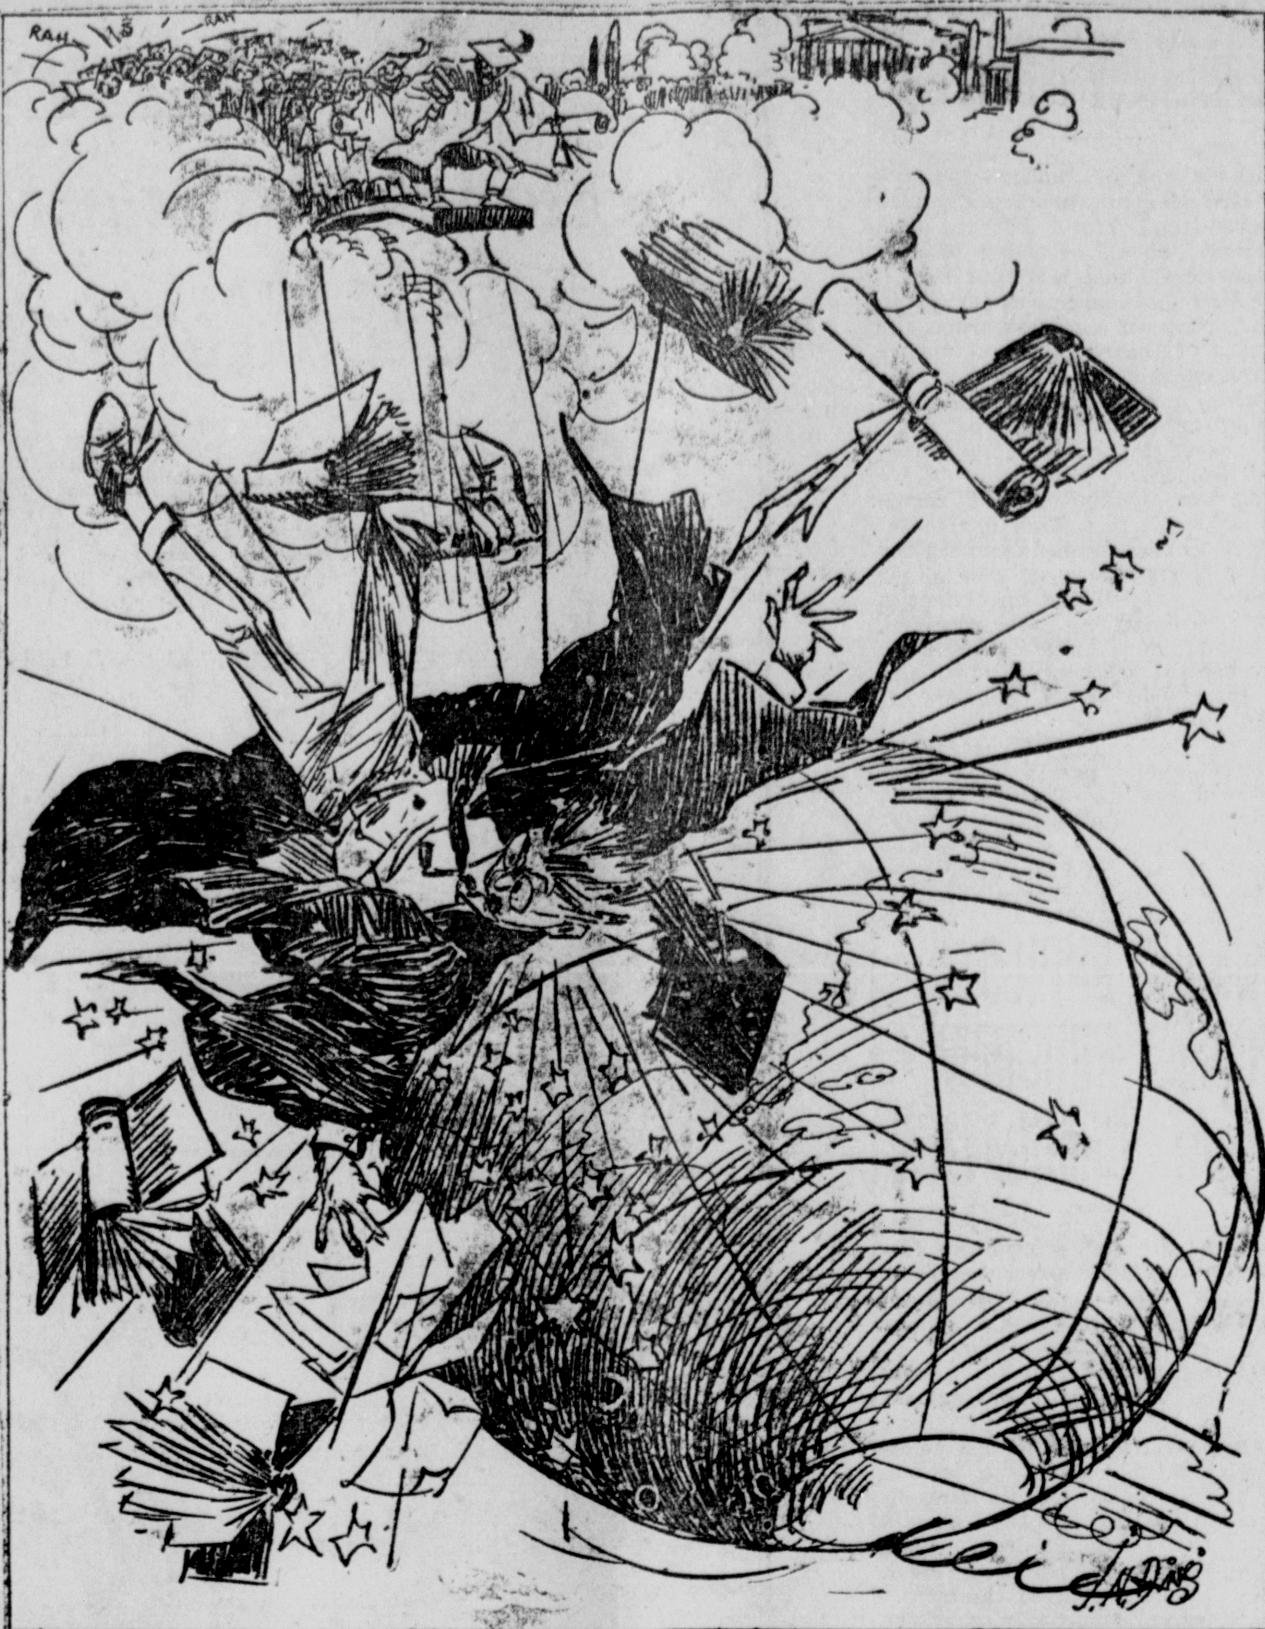

## BRITISH ADAM AND EVE SOON TIRE OF CAVE LIFE.

Major McEwen and his wife, the British Adam and Eve, who have been living in the wilds for the last week, leading the primitive life and subsisting on the animal life around them, have discovered that when seeking the primitive it won't do to endeavor to get too close to civilization.

Tired of their cave, the pair started out for a cross-country tramp, but found as they progressed that it was almost impossible to avoid their fellow-creatures who were not wearing animal skins. The doughty couple hid in fear and trembling several times when they were almost surprised by automobile parties, and on another occasion came near causing the death by shock of a highland shepherd upon whom they stumbled. Worst of all, they found that fish, rabbits and other forms of game, on which they have been living, shunned civilization also, so they returned to their cave after forty-eight hours approaching starvation.

One feature of the English Eden that surpasses the American style of going about the same adventure is that here the seekers after the primitive have been accompanied by a highly efficient and hard-working photographer, who has made a scenic record of them their habitation and so many incidents in their daily life that much of their time must be spent in posing.

### THE COMMON LIFE DIVINE

G. K. Chesterton, in his essay on "Savonarola," has this to say: "Savonarola addressed himself to the hardest task of all earthly tasks, that of making men turn back and wonder at the simplicities they had learned to ignore."

There are those who find nothing in plenty but the broken and useless husks of hunger.

The great masterpieces of Millet were conceived and executed from the common life divine—from the daily duties of the toiler. His is the man with a wheelbarrow, the woman, with a churn, the worker in the field, or the hard-handed peasant welcoming his child at sun-down.

It was at splitting rails that Lincoln grew. Thoreau so loved the charu of the woods and pond and open field that he withdrew entirely from town life and lived there, alone. And it was while living this beautiful, free and inspiring life that he wrote his most inspiring essays of simple ways and things.

He who through blood has become a king in name only, must often blush in his heart at the true kingliness of those about him—who may be no more, perhaps, than mere servants about his place.

Recent events have proved that even a king needs more than a throne and huge armies to MAKE him a king.

Carlyle's idea of a king was a man who could do things. In other words the man who rose with the sun and went about his work with beauty in his heart and determination back of his will to do many useful things.

There is nothing with more divinity

in it than the common everyday life.

God alone marks our lessons when the day is done. An He alone may know whether the poor worker with the pick has not stood highest of all. Greatness is hidden development—come from where it may!

### COMPLIMENTED ON HIS ATHLETIC ABILITY BY PAPER

Germaine Ball, son of Mr. and Mrs. John G. Hornick, of East Main Street, who has arrived here for a visit with his parents from Phoenix, Ariz., where he is attending school, was made the subject of the following article on the sport page of the Phoenix Republican recently.

"Jerry Ball, captain of the all-state basketball team and recognized as one of the leading athletes of Phoenix high school left Wednesday evening for his home at Xenia, Ohio, where he will visit with his parents during the summer."

"Jerry came to Phoenix two years ago to visit his uncle Fred Webber and he decided to remain here during the school term, entering the Phoenix High School. His ability in various lines of athletics made him a popular favorite with the student body. His work with the Coyote basketball five was especially commendable and when the Phoenix team went to Tucson to compete for the championship, Jerry's playing was a big factor in winning the state title for the Coyotes. He was not only picked as the leading all-around basketball player at the state meet, but he was elected captain of the all-state quintet."

"Jerry's many friends will be pleased to hear that he will return to this city before the fall school term opens and he will again be out working for a position on the school team. While in Phoenix young Ball has been associated with his uncle, Fred Webber, Arizona representative for the National Cash Register Company."

## Letters to The Editor

Editor Gazette and Republican:

There have appeared in the Gazette issues of June 2nd and June 5th, reports of tests by State authorities of samples of water "representing the public water supply of Xenia, also some of the private wells used at industrial plants." The State Inspector who secured the samples for testing purposes took samples from our wells at the same time and later reported to us that they were of "satisfactory sanitary quality." The Hoover & Allison Company pumps its own drinking water from its own wells located on its own premises. The pumps supplying this water have no connection with any other water supply. ## OHIO COAL COMPANY ACCEPTS "CHECK OFF"

Athens, June 8—Announcement was made yesterday by district officials of the United Mine Workers that the Sunday Creek Coal Co., will accept the "check off" demanded by the union for pumpers several weeks ago. The pumpers of this company, who quit work when the "check off" was refused, will return to work immediately, and in addition a number of other men will be sent to the mines to clean them up so that operations will not be retarded when suspension of work by miners is terminated, it was said.

Pumpers in a number of other mines in the district, who left the mines for the same reason, are still idle. Other companies, it was said, are expected to fall into line since the Sunday Creek Co., has agreed to honor the "check off."

### THE DOVE OF PEACE.

Oh, the dove is shot to pieces, and it wobbles as it flies, with its plumage all in creases and red pepper in its eyes; every day it's sorely jolted, and it looks about half moulted, and the olive branch it's bolted, and it sickens and it dies. For the nations lust for slaughter as they used to long ago; ah, poor dove! the captains swat her, hoping that the blood will flow; once again the sabre rattles and the hag of warfare tattles tales of sieges and of battles, armies oozing to and fro. There's a crisis every morning, and a threat of fire and sword; all the lessons men are scorning that late bloody days afford; every fifteen cent commander hopes to be an Alexander, and the dove looks like a gander that's been batted with a board. All the foreign states are busted, welching on their wartime debts; few if any would be trusted for a pair of cigars; yet their talk is all of drilling and of marching and of killing, blood of useful people spilling—shindys are their highest bets. And the cats of old Kilkenny feel themselves a false alarm; and the dove's not worth a penny, where it once was worth a farm; and the bughouse nations wrangle with an everlasting jangle, threatening to kill and mangle and to work all kinds of harm.

## SUPERINTENDENT OF CITY SCHOOLS REFUSES POSITION

Superintendent of City Schools C. A. Waltz, refused an offer of the Washington C. H. board of education to become superintendent of the Washington, C. H. schools on a two-year contract at an increase over his present salary, it became known Wednesday evening.

The Washington Board of Education voted the position to the local school head at a recent meeting held to fill the position, and informed him of his choice by telephone. The offer carried with it a two-year contract at \$4,000 a year, it is said.

Superintendent Waltz said Wednesday that he was not an applicant for the Washington position. The board in that city considered 100 candidates for the job, after it became known that Superintendent McVain, who has been in charge of the schools there for 13 years, would not return next year.

The Washington board selected the names of eight, likely prospects and asked State Superintendent of Public Instruction Vernon M. Reigel to name three candidates from the list. The State Superintendent named the local man first of the three which led to his choice.

Superintendent Waltz is employed by the local board on a five-year contract on which he has served two years, with three years to go.

## SPORTSMEN WILL HOLD PICNIC IN AUGUST PROBABLY

If plans tentatively considered by the Greene County Fish and Game Protective Association are carried out, the annual sportsmen's picnic fostered by that organization, each summer, will be held in the same place this year as last year and almost at the same time.

The organization has appointed the same committee to have charge of the picnic as carried it out successfully in 1921, the personnel being M. C. Smith, chairman, E. S. Foust, C. F. Taylor, Dr. George Davis, Harry Schwebel, N. P. Ewbank and Karl Keller.

David H. Kelter, on whose farm four and one-half miles south of Xenia the picnic was held last year has again offered the use of his property to the Association as the site for the 1922 picnic and it will probably be accepted. The time will be early in August.

The crowd shoot being held in the county under the auspices of the Association will close June 29, and a special meeting of the organization will be held that night. Contestants are asked to have all their entries in to the weighmasters before that time.

### FARMER'S WIFE FINDS ASTONISHING RELIEF

"For ten long years I had suffered with my stomach. I tried everything without relief, but after one dose of Mayr's Wonderful Remedy I knew I had obtained what I had been looking for and I took the full course of treatment. It is going on 4 years now and I have never had any pains or bloating since." It removes the catarrhal mucus from the intestinal tract, and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded at Sayre & Hemphill's and druggists everywhere. adv.

### HER AILMENTS ALL GONE NOW

**Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound**

Lake, Michigan.—"About one year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."—Mrs. MARY SHERMAN, Route 2, Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing the merit of this well-known medicine.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Vegetable Compound?

### Mother-To-Be, Read This—

Here is a wonderful message to all expectant mothers. From this moment on, cast from your mind all dread and fear, and feel every day as the months roll by that great freedom from much of the suffering which thousands of expectant mothers undergo, unnecessarily. And when the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says:

"With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used Mother's Friend and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes."

"Mother's Friend" is applied externally to the abdomen, back and hips. It aids the muscles and tissues to expand easily. It penetrates quickly. It contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless guesses sometimes recommended by the unknown. "Mother's Friend" is sold by druggists everywhere.

NOTE—Write for valuable free illustrated book, "Motherhood and the Baby," containing important authoritative information which every expectant mother should have, and all about "Mother's Friend," to Bradfield Regulator Company, Box 46, Atlanta, Ga.

### PAINTERSVILLE TO CLASH WITH SPRING VALLEY

The Paintersville and Spring Valley baseball clubs will tangle on the diamond at Paintersville, Sunday afternoon, in what is expected to be one of the best inter-sectional county clashes of the national pastime season.

Although minus the services of Wical, who is pitching semi-pro ball in Bloomington, Ill., the Paintersville nine has been making a good showing and is now casting its duty at other teams in the county.

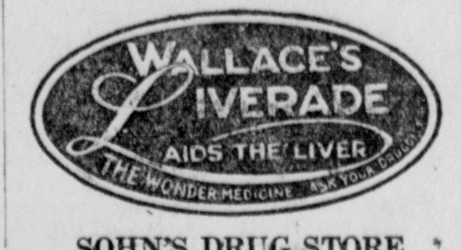

The club is anxious to hear from Yellow Springs, Helbrook, the Bay Lift Electric and other good teams for Sunday games during the rest of

the summer months. "Buck" Peterson formerly with the Bay Lift is behind the bat for the Paintersville team and Shaw will likely do the hurling in the milling with Spring Valley Sunday.

### Watch the little folks speed home for Kellogg's Corn Flakes

"Madder, I always wins the race when I carry home Kellogg's Corn Flakes. I can't hardly wait until I have some quick madder!"

It's great to see child-enthusiasm for Kellogg's; great to see every one in the family enjoy their crisp crunchiness and wonderful flavor! To sit down before a heaping bowlful of these joyous oven-browned "sweet-hearts-of-the-corn"—and some milk or cream—and fresh fruit, if it's handy—is just about the very last word in appetizing appeal! And, your good taste will prove that!

Kellogg's Corn Flakes ought to be superior—they are the original Corn Flakes! Kellogg's are never tough or leathery; never hard to eat; never a disappointment!

Be certain to get Kellogg's—the delicious kind of Corn Flakes in the RED and GREEN package—because none are genuine without the signature of W. K. Kellogg, the originator of Toasted Corn Flakes.

### HIS FRIEND RECOMMENDED THEM

"Six years ago," writes W. H. Shadwell, Stanley, Va., "I had kidney trouble, and at times was unable to raise myself in bed. Why suffer when you can get relief from rheumatic pains, backache, swollen, sore and stiff joints, sleep disturbing bladder weakness and other symptoms of disordered kidneys. Sayre & Hemphill.

## SICKLY CHILDREN NEED A TONIC

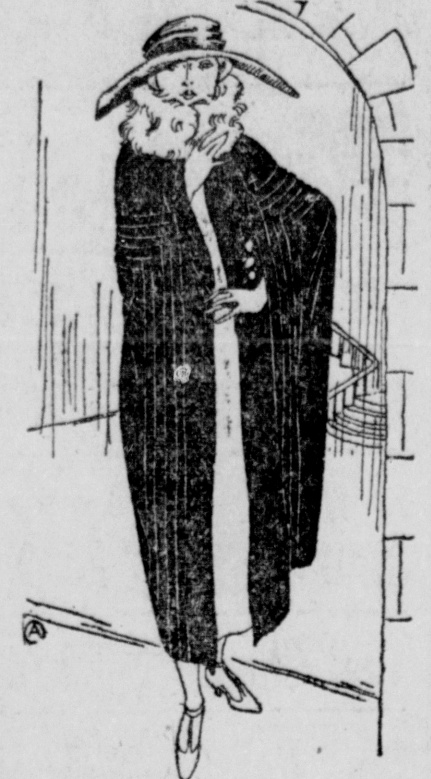

Nerv-Worth Tastes Good Aids Digestion, Regulates the Bowels and Tones Up.

Statistics have shown a large percentage of school children suffer from malnutrition and general debility and thus lag in their studies are listless and anemic. Under such handicaps the question arises: "Has your child a Fair Chance?" Look at our children after school tonight. Is there a haggard look—all faded out? Are the eyes dull or sparkling with pep and healthy vigor? If there is not an excess of good health there is need of a reliable tonic and system regulator and there is none better than the famous Nerv-Worth. It tastes good—all children like it. It aids digestion, sweetens the stomach, has a mild but very certain action on the bowels, does not purge but gives healthy normal and regular action. It is just as good for old folks as for children and just as good for big strong men as for delicate women. It is a reliable family remedy for nearly all ills come from disordered stomachs and bowels and Nerv-Worth is the greatest remedy in the world for indigestion and constipation. Most druggists sell it for one dollar a bottle. It is always for sale at Sayre & Hemphill's drug store in this city, and every druggist is authorized to give the money back if the first bottle does not show encouraging results.

## Styles BY LENORE

let this constitute a notice to mere man that he may polish up on all of his last year's jokes ridiculing his wife for wearing furs in summer. For this season, again, furs are fashionable.

At a dinner dance at the Ritz the other evening several luxurious looking wrap were worn in which fur was the chief feature, one of the models being composed of four-inch bands of squirrel arranged in shallow scallops and alternating with rows of gray chiffon following the

same line. A black satin coat, very loose and wrappy, was faced with ermine all the way down in the front, the collar cleverly cut to form a graceful scarf tie at the neck.

In a more conservative way fur is used for collars on the wraps of crepe Marocain which are so smart this season. Squirrel is usually the most attractive on gray, while dark wraps are frequently trimmed with beige colored caracul, which is the combination favored by the good-looking cape above.

A novel interwoven arrangement of pleats is the distinguishing feature of this black cape, which may prove a particularly useful addition to a bride's outfit, as it is suitable for both day and evening wear.

## Efficient Housekeeping BY Laura A. Kirkman

### CANNING ASPARAGUS BY THE SUREST METHOD

Last week I spoke in this column, about the risk of canning Asparagus, Beans and both lima and string Beans by the One Period Cold Pack Method. I pointed out that the Intermittent Cold Pack Method has been accepted as the best one for these few vegetables. Today I shall deal just with Asparagus. In giving any canning directions in this column, I assume that the housekeeper is using her wash boiler as a canner; and that the altitude of the housewife's

location is below 1,000 feet. For altitudes above 1,000 feet, the time of sterilization given below, should be increased at the rate of ten per cent. for each additional 500 feet.

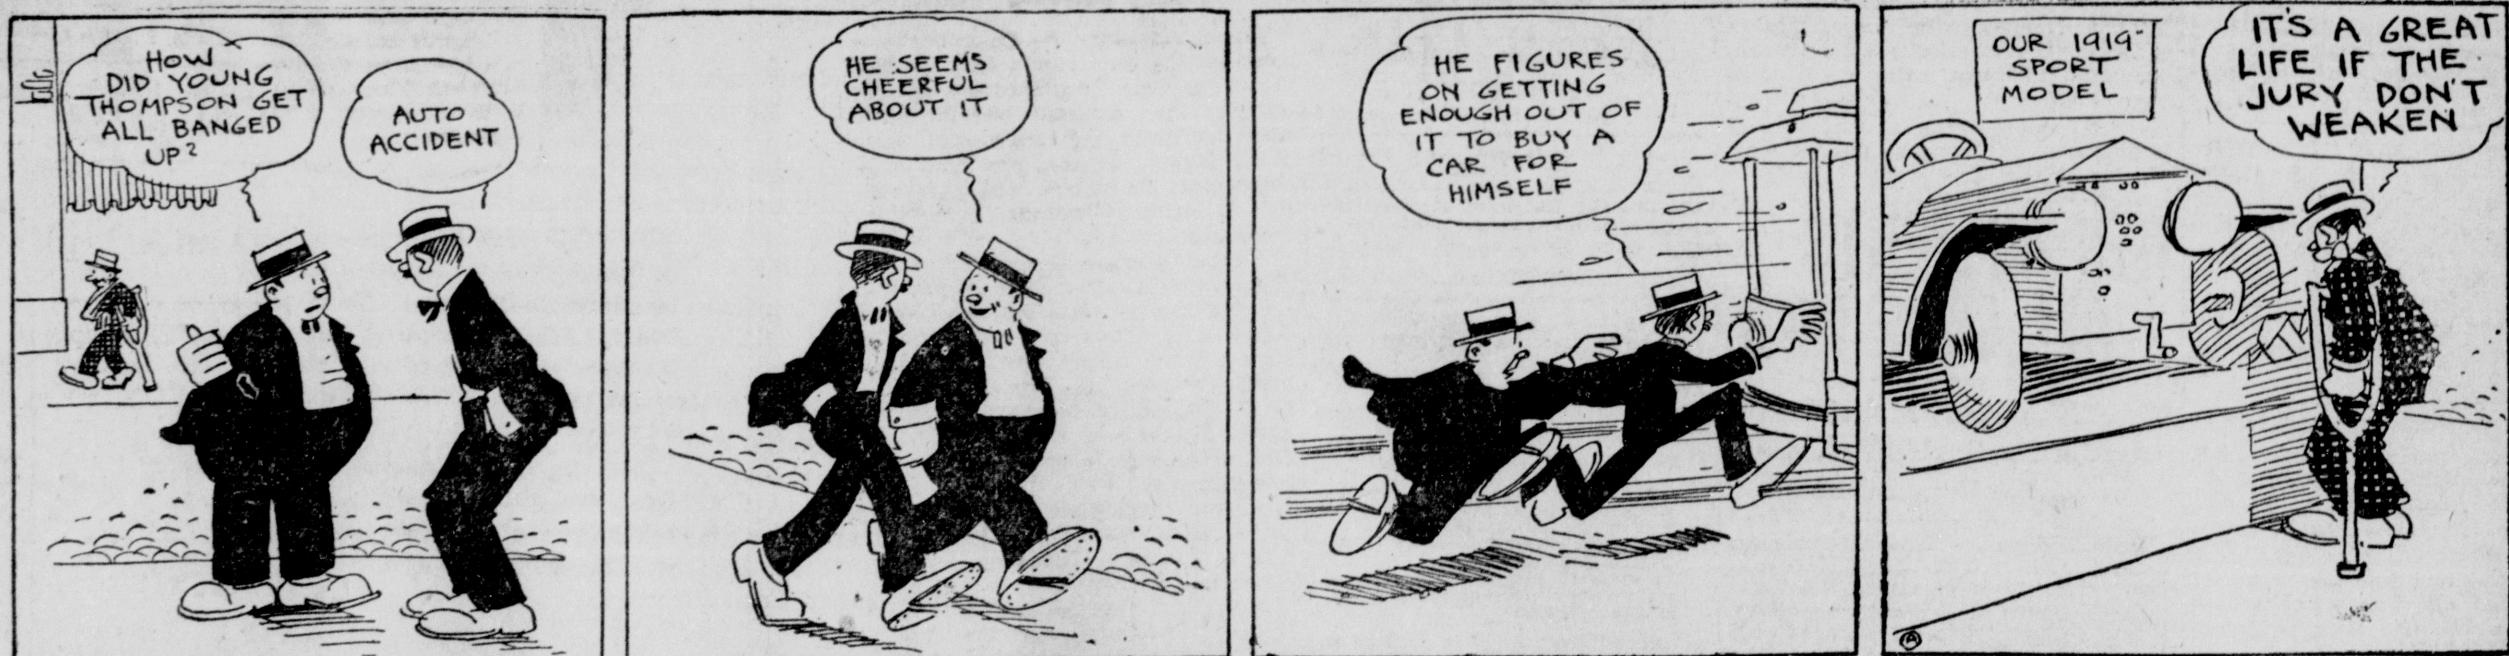

Or, better yet, a steam-pressure canning outfit may be used for canning in altitudes over 1,000 feet. The National War Garden Commission of Washington, D. C., in 1919 issued the following statement on this subject: "Neither home-made nor commercial hot-water bath outfits are entirely satisfactory for canning at very high altitudes, as the temperature of water in them does not reach 212 degrees Fahrenheit. In such localities water seal and steam-pressure outfits are advisable, as they give higher temperatures."

Asparagus: Can it soon after picking. Select young stalks, grade as to size, and wash. Tie the stalks into bundles and place the lower ends of these into boiling water for two or three minutes, then submerge the entire bunch in this water for one or two minutes longer (this is called "blanching;") now plunge the bunch into cold water (called "cold-dipping") for an instant, remove, and cut the string that bound the bundle. Jars sterilized as follows should be in readiness: wash the jar and place it, side down, in a pan; cover it with cold water and bring slowly to a boil, allowing it to boil 15 minutes. Drain, and it is now ready to receive the asparagus stalks.

When you have packed the sterilized jar with asparagus stalks, pour over the stalks, to top of jar, a brine made by combining four ounces of salt and one gallon of water; put on rubber, and "partially seal" (that is, put top wire up over glass cover but do not press down the side wire;) place the jar in a wire rack in the bottom of your wash boiler in hot water that covers the jar one inch, and bring this water to boil. Now begin to count the time of "processing" for "sterilizing" or just plain "boiling" the jar. Process the jar for one hour, let the jar stand for 24 hours in ordinary room-temperature; process again one hour on the second day, let stand again 24 hours; then process it again for one hour on the third and last day.

## FRIENDS CHURCH WILL CELEBRATE 15TH ANNIVERSARY

The fifteenth anniversary of the laying of the cornerstone of the Friends Church, at High and Chestnut Streets, will be celebrated by the church congregation, at all day anniversary meeting to be held in the church auditorium, Sunday, June 11.

Recently the church has been repaired, repainted and decorated at considerable expense of money and labor. The members feel that it is appropriate to make this anniversary a time of rally and thanksgiving.

An invitation is extended not only to the membership, but also to everyone who can do so, to attend. The members of the other churches are receiving a special invitation to the afternoon service, which will not interfere with their regular church services.

Those who can be present throughout the day are asked to bring sandwiches and a covered dish and lunch will be served in the basement at the noon hour.

Sunday School services will be held at nine-thirty with the regular preaching service at 10:30 and two o'clock. The Rev. John McMillan, of Chester and the Rev. Amos Cook, former pastor have accepted invitations to be present and bring messages appropriate to the occasion.

## XENIA MAN FILES FOR COMMISSIONER OF GREENE COUNTY

M. F. Beal, Xenia hardware merchant, filed his declaration of candidacy for the Republican nomination for County Commissioner, with Carl Ervin, clerk of the board of elections Wednesday evening.

The declaration puts three in the race for the commissioner position, for which there may be one to elect. A ruling on whether there will be a vacancy existing on the board this year or not is expected from the Secretary of State before the ballots are printed.

The three candidates for the position now are Warren Collett, of Jamestown, Herman Eavey, of Xenia Township, and M. F. Beal, of Xenia. County Surveyor W. J. Davis, Wednesday evening filed his declaration of candidacy for nomination for another term in that office and it is believed that he will be unopposed for reelection. Sheriff L. Funderburg filed his papers for nomination for County Treasurer Wednesday evening, making four in the race for that office, the others being Frank Jackson, J. F. Shoemaker and J. S. Van Eaton.

## ENGLAND AWAKES TO POSSIBILITIES OF RADIO PHONE

LONDON—Great Britain has been suddenly awakened to the possibilities of the radio-phone. While America was developing radio-phone broadcasting Great Britain sat by and watched and its newspapers made comments on "America's radio-phone game to the hilt."

Postmaster-General Kellaway has announced that a broadcasting service is to be instituted by the Post Office Department. There will be a limited number of broadcasting stations, probably in London, Cardiff, Plymouth, Birmingham, Manchester, Newcastle, Glasgow and Aberdeen. Licenses will be necessary for those who wish to install receiving sets and a fee of \$2 will be charged for each license.

"We do not want wireless free to all as is the case in America, with regrettable consequences," said Godfrey Isaacs, head of the Marconi Wireless Company. "Sooner or later in America they will have to institute some measure of control such as that with which we are beginning."

"We are only on the threshold of it all. Nobody has any possible conception of what it all may develop." The Postmaster-General proposes that all broadcasting shall be done by the Post Office Department and that those who wish to broadcast concerts and speeches must arrange for their programmes with the postal officials. This new wireless possibility is looked upon with enthusiasm by members of the House of Commons, and with a forthcoming general election in view it has been seriously suggested by some members that a broadcasting station should be installed in the chambers of Parliament in order that all of the proceedings might be open to any who cared to listen.

The sale of radio-phone receiving sets in London has been great since the announcement of the Postmaster General.

## CRIPPLED CLINIC PROVED BENEFIT TO LOCAL KIDDIES

As a result of the crippled children's clinic recently held in Xenia, two of the sixteen children who attended have already been benefited. It is announced by officials of the Greene County Chapter of the Red Cross, where the clinic was conducted.

Arrangements have been made for one crippled child, who is also deaf, to have medical attention this summer and to enter the deaf school at Columbus in the fall. Another crippled child is wearing a cast as a result of the diagnosis of Dr. Walker made at the clinic. All arrangements for both children have been made by the Red Cross, but financed by the family, according to the report of the secretary Miss Louise B. Shaffer, made at the monthly meeting of the Red Cross Executive Board.

Six other cripples have been discovered since the clinic was held. Of this number two are over 18 years of age and are interested in learning a trade whereby they can be self-supporting. This can be arranged through the Rehabilitation Department of the State which will finance part of the expenses of a person so handicapped while learning a trade.

## WILL ATTEMPT TO STRIKE OIL IN GREENE COUNTY NEW FIRM ANNOUNCES THURSDAY

An attempt to strike oil in Greene County near Zimmerman will be made within the next 10 days by the Summit Oil and Gas Company, of Dayton, a newly organized company backed by Dayton and Xenia capital, it was announced Thursday morning. The company will drill its initial test well a mile and one-half south west of the Dayton and Xenia Traction Company power station, adjacent to the Greene and Montgomery County lines according to a statement made to a representative of this paper Thursday in which the natural conditions are said to indicate an oil supply.

Experiments are said to have shown that oil and gas both exist in abundance.

The company has quietly secured title by lease to 4,000 acres of farm land property adjacent to the site of the initial well, and is obtaining new leases as quickly as possible on other properties. The leases are being obtained for three years with the provision that the company will make a thorough search will be made for both oil and gas.

John R. Brownell, president of The Brownell Company, Dayton, is president of The Summit Oil and Gas Company, elected at the recent organization meeting. W. A. Drake, secretary of The Brownell Company, is vice-president of the oil concern, C. B. Little of the Brownell Co., is secretary of the new company and H. H. Darst, president of the City National Bank, of Dayton, is treasurer of the Summit Co.

All of these officers with the exception of Mr. Darst, are on the board of directors of the company, and others on the board are Judge Marcus Shoup, of this city, attorney; F. C. Trowbridge, president of The Black-Clawson Co., Hamilton and vice president of The Brownell Company, Dayton; Elmer E. J. Fergusson of Greene County, Dr. A. H. Dunham, physician of Dayton; E. V. Dickerson, president and treasurer of The Dickerson Steel Company, Dayton and Postmaster H. E. Rice of this city.

The company has incorporated under the laws of Ohio for \$20,000 and surplus stock not taken by officers or directors of the company, is being sold at \$10 a share.

It is claimed that residents of the vicinity have found strong indications of the presence of oil and subsequent tests have convinced backers of the project that there is oil to be had.

## MINERS AND OPERATORS SHOULD ARRANGE CONFERENCE TO END STRIKE SAYS FESS

Washington, June 8.—Representative Fess, Republican, Ohio, who with Senator Pomerene, Democrat of the same state, has been asked by the George W. Jones Coal company of Toledo, to bring about a conference between Southern Ohio operators and miners to discuss settlement of the strike in that territory, has made public a message sent to operators last week in which he said he did not know how the government could participate in solution of the strike problem.

As I see it there are two ways open," said Mr. Fess. "One is by agreement through consultation of the parties in interest and the other is by the slow process of economic law."

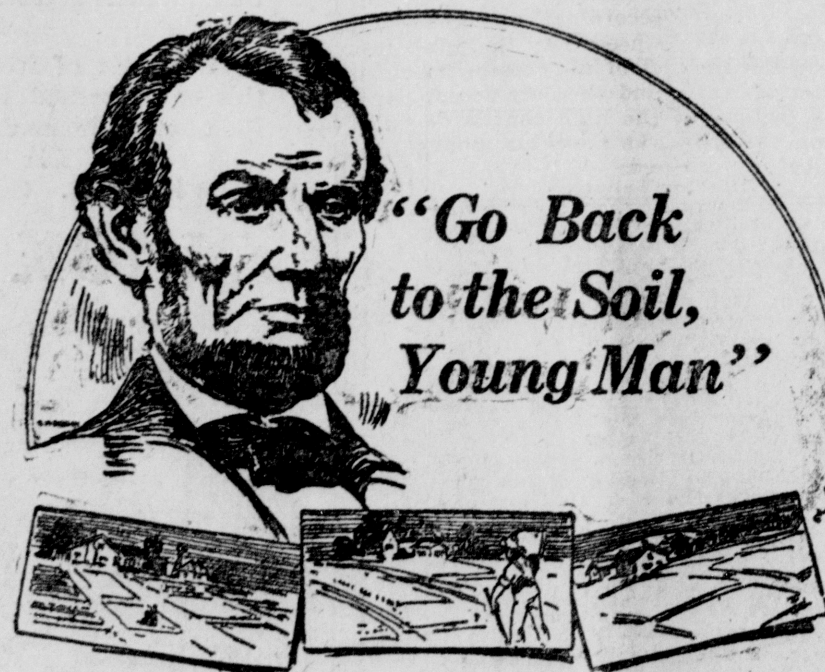

"I hope the former plan may be adopted as the latter, while sure will be slow and extremely harmful. "You will permit me to express my judgment that the operators made a mistake in not agreeing to go into conference since the refusal turned public opinion against the operators."

"Whatever be the abstract right in the contest, the time has passed when the public looks with favor upon the refusal to go into conciliatory, disputed matters between labor and capital."

Senator Pomerene said he had not received any request from Ohio coal operators to bring about a conference of operators and strikers, but added he had heard that such a request had been made to Ohio house members.

Senator Borah last night telegraphed Secretary Hoover at Youngstown declaring his willingness to "help put through" legislation which promised any solution to the situation now obtaining in the coal industry.

Mr. Borah's telegram was in reply to one sent earlier in the day by Secretary Hoover to the coal section of the commerce department.

To quote the words of our great President Abraham Lincoln,

"No other occupation opens so wide a field for the profitable and agreeable combination of LABOR and CULTIVATED THOUGHT as agriculture. Every blade of GRASS is a study—and to produce TWO where there was ONE before is both a PROFIT and a PLEASURE."

"And not grass alone, but soil, seeds, and seasons—hedges, ditches, and fences—draining, droughts, and irrigation—plowing, hoeing, and HARROWING—REAPING, MOWING and THRESHING—SAVING Crops, PESTS of crops, DISEASES of crops and their PREVENTION and CURE—IMPLEMENT, UTENSILS and MACHINES, their relative MERITS, and how to IMPROVE them—HOGS, HORSES and CATTLE—SHEEP, GOATS and POULTRY—TREES, SHRUBS, FRUITS, PLANTS and FLOWERS—the THOUSAND things of which these are specimens—EACH a world of study in itself." And we say again, "Young Man, Go Back to the Soil." BY JANE PHELPS

### LILLY AND LEN MARRY Chapter 65

Tom and Tim had gone and life once more ran on in the old routine for Gertrude Cummings. Yet into that routine had come a joyousness, and undecurrent of happiness so intense it frightened her at times.

The goodbye had been painful, would have been painful perhaps but for Tim's nonsense; he was so excited, so full of joy that he kept them laughing, although before he was out of sight Mrs. Cummings' tears flowed.

Before Tom left he had exacted a promise from Gertrude. She would marry him in six months.

"I will lend Jennie, enough to finish her course at school, she can pay me interest as well as principal when she commences to teach. It will be a business transaction just as I would lend money to a man," he told them when Mrs. Cummings and Gertrude murmured. Finally he convinced them, and obtained Gertrude's promise. "They would write often, and if possible he would return in the Fall with Tim for a short visit."

The days and weeks flew in spite of Gertrude's longing for Tom, or Mrs. Cummings' complaint that she didn't know what to do with herself without Tim.

Lilly Arnold was married. Gertrude had stood up with her. Lilly looked very pretty in her bridal finery, a white satin dress, tulle veil, orange blossoms and all.

"I'm going to be married like other girls," she had said when Mrs. Cummings had asked her about her dress. "Ma says I won't have a chance to wear the dress afterward like I would if I got a dark one, but I don't care if I never wear it again. Len gave me the money, and I'm going to have white satin and all the fixings."

Len had taken her to Atlantic City for their honeymoon. They would be gone a week, then would live not far from her old home, in the neighborhood of Len's shop.

Gertrude often ran in to see Lilly in the afternoon and marveled at the careless way she accepted her responsibilities. She never hesitated to leave her work undone to go to a movie or to the shops; she laughed

and joked with the young men of her acquaintance in her old intimate way—just as if she wasn't married, Gertrude told her mother.

"She won't be happy long if she goes on like that," Mrs. Cummings said. "I'm sorry for Len. I thought Lilly might settle down, but I guess it ain't in her. Maybe if she has children it'll sober her."

But with marriage Lilly deteriorated. Clothes, gay times with the East-side "fast set" (oh, yes there is a "fast set" there just as there is one on the Avenue's) more money to use than she ever had before—all these things went to the undoing of the girl whose nature craved pleasure above everything.

Len O'Connor was quick tempered, and they soon quarreled. Lilly accused him of caring more for Gertrude, and what he said in retaliation confirmed the suspicion. So there grew up a coldness between the two girls who had always been friends, and Gertrude discontinued her visits, while Lilly seldom even visited the building in which her mother and Mrs. Cummings lived.

When spoken to about it she said: "Ma is always asking for money, thinkin' I could help her. But I ain't got enough for myself. Clothes cost somethin' awful, and I got to look stylish."

Her own home she neglected, and Len, disappointed in his desire for a home, became sulky, refused to give her as much money as he had at first, even though she threatened to get it somewhere if he shut down on her. Before two months had passed Lilly was going out with the crowd she now cultivated, unmindful of all worldly duties and, to those looking on, her future looked darkly.

"She was always selfish," her mother complained, "but I thought she would change when she got married. She has, for the worse. I'm afraid for her if she goes on like she is doing. Len'll be leaving of her if she don't look out."

Never had the contrast in the two girls, Gertrude and Lilly, stood out so plainly. Gertrude, ambitious to improve herself, kind and thoughtful of her family—and Lilly, selfish, thinking of nothing or no one but herself. Yet

they had started life evenly in the same environment. Tomorrow—Gertrude Plans for Her Trousseau.

### PETITION FILED

Columbus, June 8.—A petition for authority to issue and sell \$40,000 worth of additional capital stock was filed with the state utilities commission by the Rural Electric Service Co., of Shelby.

### BLAME HEAT WAVE ON U. S.

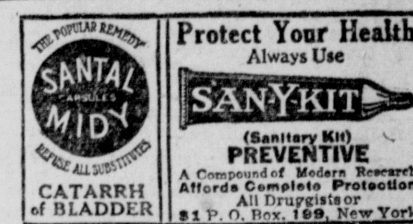

London, June 8.—Britain's heat wave is blamed today on American enterprise. Prof. John Harrison, of Clapham observatory states that the Key West railroad—built across Keys in the Gulf of Mexico by the Flagler interests is causing a gradual change of course of the gulf stream, sending it nearer to England and thus causing warmer summers.

### REORGANIZATION ORDERED

Washington, June 8.—A reorganization of the army school system involving changes in location of some of the most important instruction centers of the army has been ordered by the war department.

### GOOD HELP IN SUMMER

Indigestion causes worry, nervousness, sick headaches, biliousness, coated tongue, bad breath, bloating, gas, constipation and constant distress. Henry C. Thorne, 1002 Harrison Ave., Boston, Mass., writes: "Since taking Foley's Cathartic Tablets I feel fine." They cleanse the bowels, sweeten the stomach and invigorate the liver. Cause no pain, no nausea. Not habit forming—just a good, wholesome physic. Sayre & Hemphill, adv
